COURSE DETAILS

Course Name	Artificial Intelligence for Beginner
Duration	1 month
Timings	1 hour Monday - Friday
Fees	450,000/=
Examination	Practical and Theory Exam

PREREQUISITE

- Must know basic computer knowledge

OVERVIEW

A non-technical introduction to AI for individuals with no programming background. Covers how AI works and how to confidently use everyday AI tools.

COURSE OUTLINE

- Introduction to AI
- Problem Solving Using Search
- Knowledge Representation
- Intelligent Agents
- Introduction to Machine Learning
- Introduction to Neural Networks
- Natural Language Processing & Chatbots
- Using AI Tools in Everyday Life & Work

Examination	Practical and Theory Exam

PREREQUISITE

- Computer basic skills with it knowledge

OVERVIEW

An advanced course for those with a programming and math background. Covers core AI techniques like machine learning and neural networks, applied to real projects.

COURSE OUTLINE

- Problem Solving Using Search Algorithms
- Knowledge Representation & Reasoning
- Uncertain Knowledge & Probabilistic Reasoning
- Fuzzy Logic
- Machine Learning
- Neural Networks
- Decision Trees
- Genetic Algorithms
- Expert Systems
- Natural Language Processing
- Intelligent Agents & Real-World Application

PCTL TRAINING INSTITUTE LTD (powercomputers)
Where Education is life itself!

COURSE DETAILS

Course Name	CompTIA Security+
Duration	3 months
Timings	1 hour 30 minutes Monday - Friday
Fees	1,200,000/= + Exam Fee USD 226
Examination	Practical and Theory Exams

PREREQUISITE

- Basic IT Knowledge
- CompTIA A+ Certification
- Familiarity with Networking Concepts

OVERVIEW

- The CompTIA Security+ certification is a globally recognized credential that validates foundational skills in cybersecurity and information security. It is designed for IT professionals who want to establish a career in cybersecurity, covering essential concepts and practices to secure networks and systems. Here's an overview of CompTIA Security+.

COURSE OUTLINE

- General Security Concept
- Threats , Vulnerabilities and Mitigations
- Security Architecture
- Security Operation
- Security Program Management and oversight
