

International Certificate in Business

Overview

An introduction to business to equip students with the necessary skills for entry to NCC Education's International Diploma in Business programme. The International Certificate in Business (ICB) provides students with:

- A broad but secure foundation in the fundamental concepts of business.
- Knowing other cultures
- An introduction to mathematical concepts and techniques, useful in both their understanding of business and for their future studies.
- An opportunity to explore the basics of accounting and economics and identify the differences between them. • The essential study skills needed to succeed at university. • Experience of a variety of assessment types, designed to give students a taste of higher education.

Entry Requirements

Students must be able to demonstrate that they have previously studied English at secondary school level and must obtain the required minimum standard in the NCC Education Higher English Placement Test (HEPT). For further information visit www.nccedu.com. Alternatively, students must have a valid score of 5.5 or above in the International English Language Testing System (IELTS) examination or equivalent.

Programme Structure

The programme is classroom-based and studied over one 15-week semester (12 teaching weeks). It may also be studied on a part-time basis. Students must pass all five modules in order to be awarded the NCC Education International Certificate in Business.

The programme consists of the following modules:

- **Study and Communication Skills** - will equip students with the essential study skills needed to succeed at university. They will learn the basic study skills necessary to undertake lectures, conduct independent research, write academic papers and give formal oral presentations. Students will be given the opportunity to practice and enhance their skills throughout the programme.

- **Foundation Mathematics**

This aim of this unit is to consolidate students' existing learning in the areas of mathematics whilst at the same time introducing new topics appropriate across a range of academic disciplines and vocational areas.

Cultural studies

This module aims to enable students to gain awareness and increased understanding of other cultures. Students will learn about various features of a foreign country and its culture, with a particular focus on student life and studying abroad. As part of this, the module aims to provide students with the opportunity to gain knowledge of important life skills necessary for university students when studying away from home.

- **Introduction to Business** - an introduction to the purpose, types and organisation of business.

- **Accounting and Economics** - an introduction to the key principles of accounting and economics, with particular emphasis placed on developing a student's confidence in this area.

Assessment

The programme is assessed by assignment and examination. Assessment dates are available from your Accredited Partner Centre.

Progression

Successful graduates will be eligible for entry onto the NCC Education International Diploma in Business which is currently recognised by over 25 UK universities.
